

VRS should be continuing to provide our needs however I do not support with CSD's statement about Sorenson Media because they do not realized that Sorenson Media is heavily invested in the technology, VP-100 by Sorenson's out of pocket. They have made this happened, in fact if Sorenson Media has not made this happen. CSD will only keep providing web cam forever... I wanted to thank Sorenson Media for their wonderful hard job and I certainly hope that they will keep doing this because I personally feel that Sorenson Media have truly shown that they do care in our Deaf Community!

As for CSD, you need to get a grip and move on! Wake up and smell the coffee! You are no match for Sorenson Media at all!
